

and Histogram

Heatmap showing the correlation of 12 samples. The samples are N2_r3, N2_r1, N2_r5, N2_r2, ty1916_r2, N2_r9, N2_r4, N2_r6, N2_r8, ty1916_r1, ty1916_r3, and N2_r7. The color scale ranges from blue (low correlation) to red (high correlation). A dendrogram at the top shows the hierarchical clustering of the samples.
